

SUMMARY

Enthusiastic software developer with a strong foundation in computer science and hands-on experience in Java, Python, and JavaScript. Skilled in software development, problem-solving, and teamwork. Eager to contribute to innovative projects and continuously learn new technologies.

EDUCATION

Bachelor of Technology in Information Technology

Anna University
University College of Engineering,
Nagercoil.
Aggregate still 5th semester: 83.9%
2021-2025

HSC

Government Higher Secondary School
Percentage: 89.47%
2020-2021

TECHNICAL SKILLS

Languages

HTML | CSS | Java | Javascript | Bootstrap

version control

GitHub

Database

MySql

CERTIFICATIONS

- Full Stack Java Development @White Track Technologies
- Generative AI for Engineering @IBM

INTERNSHIP

Web development , White Track Technolgies , Trivandrum May 2024

- Proficient in HTML, CSS, JavaScript, and frameworks like Bootstrap.
- Gained practical skills in building and maintaining responsive websites, applying best practices in web development. Eager to apply hands-on experience and continue growing in the field.

Full Stack Java development, White Track Technologies, Trivandrum July 2024

- Aspiring software developer with hands-on internship experience in Java.
- Proficient in developing and optimizing Java applications, with practical knowledge .
- Demonstrated problem-solving skills and a collaborative approach in a team environment.

PROJECTS

Smart Water Management System (IoT) Project

IBM Academic Project

Developed an IoT-based smart water management system to optimize water usage and monitor water quality in real-time.

Face Expression Detection Using Convolutional Neural Networks (CNNs)

- Developed a face expression detection system utilizing Convolutional Neural Networks (CNNs) to classify and interpret human emotions based on facial expressions.
- Preprocessed image data, including tasks such as normalization, augmentation, and face alignment, to improve model accuracy and robustness.
